Planets & Balances -- APRIL

All month--SATURN(Teachings/Learnings) & URANUS(Sudden Changes/"Flashes") Retrograde (Backwards) in Sagittarius(Willful Evaluations/Criticisms) and PLUTO(Spiritual-level Understandings) Retrograde in Scorpio(Emotional Creativity); and after 4/10, NEPTUNE(Intuitions/Inspirations) Retrograde in Capricorn(Active Practicality/Materialism).

WATCH OUT FOR MISTEACHINGS/MISLEARNINGS AND FOR DESTRUCTIVE STUBBORNESSES/UNEXPECTED CHANGES IN/ABOUT WILLFUL CRITICISMS, AS WELL AS DEEP-LEVEL(Spiritual) MISUNDERSTANDINGS ABOUT EMOTIONAL CREATIVITY, ALL MONTH, THESE PROBLEMS COMPOUNDED BY FALSE INTUITIONS/INSPIRATIONS ABOUT ACTIVE PRACTICALITIES AFTER 4/10.

AIR(Thinking) none all month; FIRE(Willpower) high 'til 4/20, then average; WATER(Emotionalism) high all month; EARTH(Practicality & Materialism) high all month.

CREATIVE(Planning/Theorizing) very low all month; ACTIVE(Doingness) average all month; EVALUATIVE(Retrospect/Criticism) VERY High all month.

STRONG TENDENCIES TO NOT REASON THINGS THROUG, USING EMOTIONAL INCLINATIONS INSTEAD, THIS COMBINED WITH HEAVY PRESSURES TO BE "CAUGHT UP" IN THE PAST & IN CRITICISMS!!!

Devote careful attention to reasoning things through and to planning ahead! Take care to not get caught up in fiery criticisms, especially about the Past! (Very difficult times!)

Note: We may see further major volcanic and earthquake events this month!!!

VOICE OF THE TURTLE:

Damage-Control

According to some recent information coming to Church Of Seven Arrows, the incidence of spontaneous psychic & paranormal effects among the General Populace has increased about 1000% since last June, while the incidence of children born with full-range psychic abilities operative at birth has increased from about 1 in 1000 to about 1 in 200.

This has been expected as part of the World-Change Process, as have the evidences of increased clandestine "meddling" in Man's & Earth's affairs by assorted psycho-spiritual "con-artist" Beings pretending to "Saviour-Deity"

-- cont'd next col.--

Voice of the Turtle - cont'd:

status, to say nothing of such star-traveling groups as "Ashtar Command" and others who would like to devote Earth's natural and Human resources to feeding their Industrial Complexes.

If the events of past World-Changes are accurate indicators, we can expect all the foregoing to increase in frequency & intensity over the course of the next few years as part of Grandmother's "weeding out" of those whose allegiance to Earth is more Professed than Actual. (Anyone who wants off will have lots of opportunities to go -- but Not with their Bodies which Are part of the Earth!!!)

Additionally, on the basis of current indicators and of the progresses during past World-Changes, we can expect major geologic & climatologic events to be occurring with increasing frequency & severity for another two or three decades (these also providing lots of opportunity for those not wanting to be here to leave the area!).

The import of all this for Earth-Religionists & Magical Practitioners is that the time when we could get by with Superficial and/or Slip-Shod Practice(s) has gone -- the time has come to Get Serious OR Get OUT. (As of Olde, so It Be Again!)

To put it perhaps more Directly & Clearly, those who take their Practice seriously enough to make it an Integral part of Daily Life and have the Discipline to Do It RIGHT so as to stay in Constant Touch & Harmony with the Earth as it IS have a High probability of "getting through" in "good order", while those persisting in Superficial and/or Slip-Shod Practices will find themselves going Elsewhere (Off-of-Earth, into the Pit, or...) on a "Willy-Nilly" basis.

The Choice Is YOURS!!!

-- Kahóte --

HAPPENINGS:

Item: The Reagan administration has been making plans to sell certain government agencies to private industry. The ACLU has just made a serious offer: They want to buy the Justice Department.

Item: A company has been permitted by California to spray a patch of strawberry plants with Frostban, a man-made derivative of a bacteria that occurs naturally. Company officials claim that Frostban will keep frost from forming on the strawberry blossoms, and could be used to save other crops from frost damage. The Monterey County Board of Supervisors called a hearing to consider blocking the experiment because of complaints. A Washington-based environmental group plans to seek a federal court injunction against the spraying.

Item: Smithsonian officials, under criticism by several American Indian groups, will turn over to tribal leaders Indian skeletons which are clearly linked culturally or biologically to current tribes. The museum figures that this would apply to less than 10% of the 14,000-skeleton collection since most of the remains are prehistoric and can't be identified. The Indian organizations want all the remains returned for reburial for religious reasons.

Happenings - cont'd:

Item: An unexplored area in eastern Zaire (in Africa) has given up quartz tools that appear at least 2 million years old. The tools, some 300, were found with bones and teeth from pigs, antelopes, giraffes, elephants and a three-toed horse. This discovery is the first indication of human ancestors in the Western rift.

Item: The American Lutheran Church, the U.S.A. Presbyterian Church, and four of their congregations have filed suit because the government placed informants (posing as members of the sanctuary movement) armed with tape recorders in church services and Sunday school classes. These informants have been key prosecution witnesses in a current trial in Tucson, Az. of 11 church people accused of aiding Central American refugees. The worst effect of this action is the intimidating and chilling blanket upon what is considered to be the greatest value of congregational life - communal trust.

Item: An experiment conducted on one of the Easter Islands involved 20 men moving one of the famous stone statues by leaning it from side to side, thus "walking" it forward in steps. This might be an explanation for the legendary description by the islanders of the so-called "walking statues."

Item: The north shore of the Bay of Fundy in Nova Scotia is the site of the latest fossil find - the largest in North America. Over 100,000 bits of bones from fish, crocodiles and dinosaurs that lived over 200 million years ago were found in a valley where there was a rapid change from desert to lake. The creatures were of a species which survived a catastrophe that destroyed over 40% of the land and lake animals.

Item: A fossil-rich area near the Yellowstone river in Wyoming has yielded teeth and jaw-bones which may belong to one of the first true primates, and a distant ancestor of humans. This animal was squirrel-sized, fruit-eating, tree-dwelling, with wooly fur and a long tail. This species disappeared from North America about 45 million years ago, and pre-dates the monkey by about 13 million years.

Item: Egypt's antiquities board has started a program to rescue the three pyramids of Giza - all that's left of the ancient Seven Wonders of the World. Graffiti is first on the list; local sales of everything from fake artifacts to camel rides is to be restricted, and the third concern - the area around the pyramids after sunset is a favorite place for lovers.

PROJECTS & GATHERINGS:

Ask The Old Man:

Question: What is likely to be the situation in America late March-early April?

Coming to Meet

The entire late March-early April period (approx. 3/20-4/10) looks like one wherein the blending of Material & Spiritual will be appropriate and relatively easily accomplished; however, there will be need for much care that the urges toward "getting together" do not cause overlooking of apparently harmless "dark forces" that might contaminate the constructive influences if unchecked.

A good time for harmonizing the Material with the Spiritual, and for "putting together" new alliances; however, be Very careful to keep clandestine destructivenesses & "hidden agendas" (yours or others'!!!) from contaminating your efforts & relationships!!!

EARTH-WATCH:

A National Oceanic & Atmospheric Administration spokesman reported that on Feb. 8th disruption of Earth's magnetic fields. Resulting from one of the strongest geomagnetic storms since 1976, caused problems for satellites, aircraft and radios across much of the Northern States and extended the aurora borealis farther South than usual. These storms were related to powerful solar flares which occurred the previous week.

On Feb. 3rd the U.S. Fish & Wildlife Service was barred by a preliminary injunction from taking the last 5 remaining "wild" California condors from their natural habitat to place them in zoos with the other known remaining condors (only 26 total!).

Changes in Earth's molten core result in drifting of the Poles. On Jan. 2nd, after being "lost" for 34 years, the magnetic South Pole was "found" by an Australian Antarctic motor vessel. The present location is 65 degrees 18 minutes South latitude, 140 degrees 2 minutes East longitude.

Fifty-three million-year-old fossils recently uncovered in Northwestern Wyoming suggest that early primates migrated from Africa, to Asia, to North America, and finally to Europe. Previous to this find, scientists assumed that early primates originated in Africa, then to North America.

By subjecting samples of lichen to trace-mineral analyses to determine how much lead and sulfate they contain, it is possible to know about how much acid rain has been falling in a given area. Data obtained from such analyses done by a lichenologist at the Smithsonian Institute indicates that 55 Western American national forests, wilderness areas and parks are being threatened with acidification even though the largest portion of the country's air pollution (including 92% of its sulfur dioxide) originates East of the Mississippi.

LET'S TALK RUNES:

Part II

Myself, I prefer to draw the runes from the well of the Oracle. I carefully ask myself what is the issue, or problem, that the advice of the runes might effect. A gentleman, Don Santo of Santa Clara, California, considers the bag to represent the womb. The method of use being close to what follows.

Be sure that the bag is closed, the opening tied almost shut. Grasp the bag at the top and at the bottom. Upend it a few times, while concentrating on the issue, or question, at hand. Then holding the bag (womb) upside down, remove your hand from the top, and see what is born.

If no runes are "born" out, then three runes are drawn out; one at a time. Should other runes come out, without being drawn, this person would still draw out the three runes. The runes that came out of their own, were considered of more portent; than those runes that were drawn out.

His runes were usually read in groups of three or four. Allowances were made for a sideways lie of the runes. Should the rune have an opening, e.g., ansuz (𐌺) up or (𐌻) down, the upward direction has more effect, or is more "likely to be". While the downward direction was of less effect. It was noted, that either of the sideways positions were somewhat "ify".

Another method of casting, was to spread out a cloth. The runes, either freshly made or a personal set, were made to fall upon the cloth. Those runes that fell runside up were read and considered.

Some other books for information about the runes or the legends/mythologies that have been suggested by, and for, the readers are: (for mythology)

GODS OF THE ANCIENT NORTHMEN,
by Georges Dumezil
(Univ. of Calif. Berkeley Press, \$8.95)

and for the runes:

FORTUNE-TELLING BY RUNES,
by David and Julia Line (c.1984)
(Aquarian Press)

THE MAGIC OF RUNES,
by Michael Howard
(Aquarian Press)

FUTHARK: A HANDBOOK OF RUNE MAGIC,
by Edred Thorsson
(Samuel Wiser, \$8.95)

I have not yet read these books, but they are appreciated additions to a reading list. I have addresses for the Aquarian Press and for Samuel Wiser, should requests for the information be received.

I'd like to thank Don Santo for the material and references that were sent in for use in this column. Some of the information will be saved for future columns. To all the readers, please send in any information of interest to the editors of T-bow. Any information sent in, will be filed for use and reference by T-bow. Thanks.

May your issues be clear and your questions be to the point.

STAR STUDIES:

---Princeton University scientists have discovered a pulsar (pulsing star) with a mass about 1-1/2 times that of the sun with a diameter of 10 miles, compared to the sun's of 1 million miles.

The as-yet unnamed star is 1,500 light years away and spins at 186 times a second with a spin so uniform that it can be used as a very accurate "clock."

The midget star, detected as radio signals, pulsate with every spin and any change in the rate of these pulses could denote passage of gravitational waves believed to have begun with the birth of the universe.

The explanation of the unusual denseness of the pulsar is that only the nuclei of the atoms exist without the typical space for orbiting electrons.

---West German astronomer Kurt Birkle of the Max-Planck Institute of Astronomy took a picture of Halley's comet on Jan. 10, '86, at the Calar Alto Observatory in southern Spain which revealed a dark spot or a hole in the comet's tail.

---Sirius, the brightest star in the night sky, is seen as a point of cold blue-white light. But astrological and astronomical texts of the ancient Babylonians, Greeks and Romans describe the star in the Canis Major constellation as having a distinct reddish color. Recently another early medieval manuscript provides evidence that Sirius may have had a ruddy complexion at least up to the end of the sixth century.

INCREASING LIFE FORCE (Part 2)

The Guardian of Power, who holds the gate closed against man, is Terror. He who masters Terror, who learns to ride it, to harness it, to measure it out, groom it, increase and decrease it, cultivate it and inhabit it - He shall have Power.

Poetic the above may be; and it being an old lesson in magic and witchcraft; there is something of a scientific truth therein, all the same. Man is a composite being. He is composed of higher and lesser spirits. Nearly every gradation of entity, from particle to god, is represented in the creature we call Man. So, we find his reactions to power are alike; composite. Among those reactions, is shocking and paralyzing Terror.

Much can be said about the apathy which prevents study and practice. The soggy mire of grief consumes one's energy. Hatred wrecks senseless destruction and opens up the pits of shame, blame, and regret. Any of these barriers may prevent the god in man from exercising its limitless powers.

Terror has the deepest pit beside it a place we call insanity. This, more than anything, is the Mystical Abyss. Oddly, the body seems to thrive on jolts of terror as if it were both food and rest. Yet in the mind, there are mechanisms set to go off, and drive men and gods to madness.

One remedy is to manage Fear to balance it in calmness. The best method is to dismantle the mechanisms which are triggered by Fear and bring about insanity. This is readily accomplished in advanced clinic levels, using electropsychometered counselling techniques.

To inhabit Power and harness Terror, one must first recognize its source. Terror belongs to the lesser Entities, and not to one's Higher Self. If one is aware of one's immortality, there is no need to worry or react about survival.

Literates' Corner:

This month's column will take a look at a couple of newsletters of interest.

THE WAXING MOON is an official publication of the Temple Of The Elder Gods, and/or *TOTEG*. The purpose of the newsletter is devoted to the publication of matters and materials pertaining to the Old Religion. When this publication was founded in 1965, by Joseph B. Wilson, it was the first in the U.S. specific to these topics.

The format of this newsletter is set-up on a seasonal publication schedule to coincide with the seasonal theme. The Spring '86 issue addressed ritual use of a sweatlodge, environmental concerns for Alaskan wolves, personal spiritual and magical beliefs, uses of local plants, and several other topics. There wasn't much concerning a "classified" section for advertisement or public notices, though.

This newsletter is published seasonally. Four issues per year are received for a five dollar donation. Although it is an official publication, the opinions expressed in *THE WAXING MOON* are declared to be those of the writers. For more information about this publication contact: Temple Of The Elder Gods, P.O.Box 4172, Sunland, CA 91040.

HERETIC'S JOURNAL BULLETIN is a newsletter devoted to social and spiritual liberation. It is published and partially written by Ron Heresy.

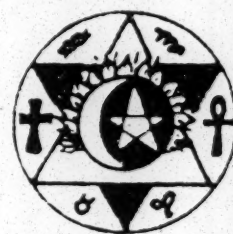

The topics and positions addressed ranged from the forced relocation of the Navajo and Hopi peoples, to arguments of Christianity vs Fundamentalism, to miscellaneous news items. The "classified" section listed over a dozen projects, events, and publications.

The *HERETIC'S JOURNAL BULLETIN* is published quarterly, and sample copies or subscriptions are free. For more information concerning articles or subscription, contact: Heretic's Journal, P.O.Box 12347, Seattle, WA 98111.

EXTRA! EXTRA!

THE ROWAN TREE HERB SHOP has recently sent out their 1986 catalog and price list. This is for a large variety of common and rare herbs, roots, and spices. Most everything from whole pieces of Acacia flowers; to Five Fingers grass; to Witch Hazel; to seasalt. Included in the catalog and price list are certain accessories; e.g., bags, pouches, and tarot decks. For more information concerning stock, references, or payment terms contact; *THE ROWAN TREE*, P.O. Box 8814, Minneapolis, MN 55408.

THE "LIGHT" IDEA:

The way light effects our lives is incredible. The different colors, frequencies, or types of light can effect our attitudes, physical health, growth, and other aspects. The effects upon other animals and plants are still largely unknown.

John Ott is a gentleman who, through the practice of a hobby, brought the field of photobiology to the attention of the "scientific community". Photobiology is the photographing the cycles of plant life, using lights to attempt to manipulate, or control the timing of these life cycles. Back in 1927, this was the hobby of a teenager.

Later, the use of automatic timers was added. This was to continue the time lapse photo routine, with the equipment left unattended. The use of specific types of light came in response to a pumpkin vine that Disney studios had contracted John Ott to photograph.

The type of lighting used at first seemed to decrease the ratio of female vs. male blossoms. Then the cool white light tubes were replaced with daylight white light tubes. The change in lighting seemed to reverse the effect to decrease the ratio of male vs. female blossoms. Further study revealed a method of control by using different types of light.

Evidence gotten while using a microscope and filtered light revealed that different colors of light caused different actions by the components of cells in plants and animals such as causing bunching or dispersal and activity or a lack thereof.

The effects noted range from affecting the sex and coloration of fish eggs, determining the birth sex ratios in litters of chinchillas, or to increase egg laying by hens. Pink fluorescent light caused buildup of calcium deposits in heart tissue, smaller litters, significantly greater tumor development, and a tendency toward irritable, aggressive, and cannibalistic behavior. Hair loss and skin damage was noted during exposures of six months. Based on research oriented data, it has been reasoned that different types of light and lighting conditions- natural unfiltered sunlight- various kinds of artificial light, or natural sunlight filtered through different kinds of glass (e.g., window glass, or eyeglasses)- could effect the physical well being of an individual.

Mr. Ott referred to indications that light is a nutrient, similiar to the nutrients in food. He stated a belief that our lives require natural daylight, full spectrum, to maintain health.

For more information about books, lights and fixtures, or research findings write to: Dr. John Ott, P.O.Box 40004, Cresent Beach, Sarasota, FL 34242. Please include a self addressed, stamped envelope.

VOICES IN THE WIND:

Sign on a tree in Madrid, Spain:

I am the warmth of the hearth on cold winter nights,
I am the shade screening you from the hot summer sun,
My fruits and restoring drinks quench your thirst as you journey onward,
I am the beam that holds your house; the door of your homestead, the bed on which you lie, and the timber that builds your boat,
I am the handle of your hoe, the wood of your cradle, the shell of your coffin.

SEVEN ARROWS' DOINGS:

By way of commentary on issues of Community, the Four Elements, Women & Men, Womens' Guilds & Mens' Guilds, etc., Earth & Water and "What do we Have or Need?" & "What do we Feel?" relate to the Feminine, while Fire & Air and "What do we Want?" & "What do we Think?" relate to the Masculine. Clearly, these must operate in Harmony as with Heart & Head in the Body if the Community is to be Healthy & Dynamic; and Both must be in Close Touch with the Earth as it Is in these Times.

-- George --

Beginnings & Endings -- A new Basics of Shamanism and a new Intermediate Shamanism series each got underway in good order on schedule, while the Sun.-eve. Basic Magic and the Thurs.-eve. Intermediate Shamanism groups completed their studies, the latter to receive their certificates at the March New Moon, at which time Dee will also receive her Ritual Operator certificate.

NO FURTHER CLASS-STARTS ARE PLANNED UNTIL MID-APRIL.

Assorted & Sundry -- Kathy sent word that she got married Feb. 14 & is now McGinnis instead of Flaherty. The picture of George on the cover of the March Denver Magazine is the best one taken of him in the last 20 years. (Relative this latter, any "dream-state" or "astral" apparitions in this appearance should be treated as "Shoot on Sight!"--they won't actually be George!!)
